

Dressing Room A Table Layout

This Diagram is for Dressing Room A only (not for other dressing rooms).

1. When you walk in the front door you will see rows of tables each with a number over them.
 2. Volunteers should go to the table assigned to them.
 3. Students will be guided to their tables by the Dressing Room Leader (who will have a Roll sheet listed alphabetically by student with each student's dances listed and the table numbers they should be sitting at). The Leader should instruct each student to go to the table of their first dance.
 4. If they have more than one costume, help them place their costumes so the area remains neat. All students should have their names in their costumes and shoes.
-
1. **Please, in the most loving way possible, do not let the students become loud and wild. In a large group, it is much harder to give instructions when you cannot hear yourself think. Constantly encourage the children to speak softly.**
